Presto

Turn to Inmagic[®] *Presto*, an enterprise research asset management application, when managing multiple collections of information in diverse formats and locations is of strategic importance to your organization. The information-intensive organizations that use *Presto* typically have high-value and dynamic content that needs to be centrally managed and made available to a wide audience; library automation and workflow are not a central concern.

Genie

Select Inmagic[®] *Genie* when you need an integrated library system that will accommodate the changing needs of today's information centers. Accessible 24/7 via the Web, *Genie* supports the back-office workflow needs of information center staff while simultaneously providing a rich and robust self-service retrieval environment for end-users.

Genie Express

Use Inmagic[®] *Genie Express* to create an information-rich and attractive Web-based catalog without relying on IT. *Genie Express* gives end-users 24/7 self-service access to both traditional and non-traditional research assets.
