

INMAGIC®

Inmagic® Presto and Microsoft® SharePoint® Integration

Organizations increasingly view SharePoint as an infrastructure choice for their overall ECM needs but look to independent solution providers to augment their SharePoint footprint with custom solutions to specific business problems.

With Inmagic *Presto*, organizations can augment their SharePoint investment by utilizing *Presto's* unique capabilities targeted for building internal, secure knowledge communities around business content while at the same time providing sophisticated search and security capabilities. As a Knowledge Management platform, *Presto* adds significant value to an organization, either as an augmentation to an existing SharePoint implementation or as a standalone solution.

Through its use of Web Parts, *Presto* and SharePoint can easily and effectively co-exist, adding tremendous value to both solutions.

About Inmagic

For over 25 years, Inmagic has been a pioneer in creating advanced information and knowledge management tools and applications. More than 5,000 organizations around the world have placed their trust in Inmagic software to actively manage both physical and virtual assets and gain extraordinary insights from them. Inmagic's two decades of solving information management challenges for many types of organizations, along with its advanced technology and superb implementation and support, make it an ideal partner to help organizations with their information and knowledge management initiatives.

■ Inmagic Search Web Part is embedded in SharePoint
■ Search *Presto* directly from SharePoint
■ Display *Presto* Collections in SharePoint

The screenshot shows a SharePoint interface with a Presto sidebar on the left. The main content area features a 'Quick Search' bar, a 'Featured Collection' of news items, and a 'Microsoft Windows SharePoint Services' logo. A callout box on the right provides contact information for Inmagic Presto.
